Chapter 15
NON-DCF LICENSURE

15-1. **Purpose.** This chapter describes the Department’s policies and procedures for the issuance of a Non-DCF license. It is the policy of the Department of Children and Families that non-DCF licensed placements are aligned with federal guidelines to claim Title IV-E for the costs associated with the child’s out-of-home care.

15-2. **Scope.** The policies and procedures within this chapter apply to all staff of the Department, Community-Based Care Lead Agencies (CBCs) and subcontracted providers involved with the placement of children in out-of-home care.

15-3. **Authority.** The following provides the legal authority that governs the issuance of a non-DCF license:

   a. Section 409.175, Florida Statutes.
   
   b. Chapter 65C-46, Florida Administrative Code (F.A.C.)
   
   c. Chapter 65C-14, F.A.C.

15-4. **Definitions.**

   a. “Entity” refers to a group home or facility licensed by an authority apart from the Department of Children and Families (DCF) or that does not carry a child-caring agency license from DCF. Such agencies are the Agency for Persons with Disabilities (APD), Agency for Health Care Administration (AHCA), Department of Health (DOH), Substance Abuse and Mental Health (SAMH), and Title IV-E agencies of other states.
   
   b. “Non-DCF License” refers to a license created in Florida’s child welfare system of record for an entity not licensed by the Department for the purpose of meeting Title IV-E eligibility requirements for the placement of a dependency youth.

15-5. **Requests for a Non-DCF License.**

   a. The CBC or their subcontracted provider shall submit a request for a non-DCF license for relatives, non-relatives, foster parents, group homes, or an entity to their DCF regional licensing staff. The CBC shall create the provider in the Florida Safe Families Network (FSFN). The CBC must search the provider in FSFN prior to creating a new profile to avoid duplicate providers. If multiple provider profiles exist, the additional profiles shall be merged when possible.

      (1) Relative, non-relatives, and foster parents shall be created using their legal first and last name.

      (2) Group homes and entities shall be created using the name on their license.

   b. The CBC shall upload all required documents listed in section 15-6 and any additional documents received related to the license in the provider file cabinet in FSFN under Provider Household Documents with the sub-type of Other.
c. Documents shall be named to include the applicable year, provider name, title of the upload, and number if multiple uploads exist for the same file. See examples below:

   2020 Provider Name Non-DCF Licensing Packet-Pt.1
   2020 Provider Name Non-DCF Licensing Packet-Pt.2

d. The CBC shall notify the regional licensing staff of the request for issuance of a non-DCF license prior to or upon placement of the child. Placements may not be Title IV-E reimbursed if placed during an unlicensed period.

e. The CBC requesting a non-DCF license shall contact the regional licensing staff for the region in which the entity is located. Requests can be submitted via email and must include the name of the non-DCF provider, address, licensing authority, point of contact name and phone number, and FSFN provider ID.

15-6. Requirements for a Non-DCF License.
