Needed, sought, But not received treatment for Illicit Drug use in Past Year <sup>3</sup> (NOTREAT)	Unmet treatment need (UNMET)	January 2019 - January 2020 Treatment providers combined Average Daily census <sup>4</sup> (ADC)	Treatment Providers combined Capacity <sup>4</sup> (TCC)	Remaining Capacity (RTC)	Does Remaining Capacity meet unmet need (UNMET<RTC)	Unmet need minus remaining capacity (UNMET-RTC)	Unmet need divided by average capacity - new clinics based on unmet need ((UNMET- RTC)/ACC)	Is there a clinic that can serve: indigent, Medicaid recipients, and pregnant women (Feb 2020)	Are new clinics needed (2019- 2020)	Type of clinic needed (2019- 2020)	Number of new clinics needed (unmet need AND ability to serve indigent/ Medicaid recipients and Pregnant Women) (2019-2020)	Approved OTPS not yet open (2018- 2019)	Difference of new clinics need from FY 2019- 2020 & approved OTPS not yet open (2018- 2019)
--------	----	---------	--	---	---	--	---	--	--	---------------------------------------	--	--	--------------------------------	--	--	---	---	---	--	---	---	---

Methodology Run on 06/25/2020

Data Source: Data obtained from Florida Department of Health: <http://www.flhealthcharts.com/FLQUERY/Population/PopulationRpt.aspx> (Column D). Data also obtained from Substance Abuse and Mental Health Services Administration, 2012-2014 NSDUH Substate Region Estimates –

Excel Tables and CSV Files (Column E), 2014-2016 NSDUH Substate Region Estimates by Age Group (Column G), <https://www.samhsa.gov/data/sites/default/files/NSDUH-DR-FFR2-2016/NSDUH-DR-FFR2-2016.htm> Figure 15 (Column J).

\*Circuit level data was not available, due to Low precision; no estimate reported, for the *Heroin Use in Past Year* variable, Regional number was used

Unmet treatment need < 60 does not require a full clinic (based on smallest full clinic census at 63)

The average clinic capacity (ACC) in full clinics (26,921/47 full clinics) = 572 individuals per clinic (rounded to 600). This was used to establish the number of clinics needed

Note: Florida’s 2018 substate level data is unavailable. The 2019-2020 OTP Needs Assessment uses the most recently published National Survey on Drug Use and Health (NSDUH) substate estimates. These estimates present the United States’ substate estimates for 15 measures of substance use and mental illness based on combined 2014 to 2016 NSDUH data (Column E and G), previously used in the 2018-2019 OTP Needs Assessment. The Substance Abuse and Mental Health Services Administration (SAMHSA) 2018 Annual Report published the perceived need for substance use treatment among people age 12 or older who needed but did not receive specialty substance use treatment in the past year for 2018. However, the perceived need among people age 18 or older is required to be consistent with the previous needs assessment (Column J).
