II: Annual Update

Table 1 Priority Area and Annual Performance Indicators - Progress Report

Priority #: 1

Priority Area: Mobile Crisis Response Team Diversions

Priority Type: MHS

Population(s): SMI, SED, Other (Adolescents w/SA and/or MH, Crisis)

Goal of the priority area:

Ensure Mobile Response Teams maintain high diversion rates.

Objective:

Increase the percentage of MRT calls requiring an acute response that are diverted from an involuntary examination.

Strategies to attain the goal:

The Department will monitor performance on an ongoing basis and offer training and technical assistance resources as needed to maintain performance standards.

Edit Strategies to attain the objective here:

(if needed)

☐

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The percent of MRT calls requiring an acute response that are diverted from an involuntary examination.

Baseline Measurement: In FY 20-21, 81.1% of MRT calls requiring an acute response were diverted from an involuntary examination.

First-year target/outcome measurement: At least 82% of MRT calls requiring an acute response are diverted from an involuntary examination.

Second-year target/outcome measurement: At least 83% of MRT calls requiring an acute response are diverted from an involuntary examination.

New Second-year target/outcome measurement(if needed):

Data Source:

MRT Cumulative Data tracking spreadsheet.

New Data Source(if needed):

☐

Description of Data:

The numerator is the number of calls requiring an acute response that were diverted from an involuntary examination and the denominator is the number of calls requiring an acute response. For the 2020-2021 baseline, the numerator is 13,506 calls diverted, and the denominator is 16,651 calls requiring an acute response.

New Description of Data:(if needed)

☐

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

☐

Report of Progress Toward Goal Attainment

First Year Target:

Achieved

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):

In FY 21-22, 82.6% of calls requiring an acute response were diverted from involuntary examination, which achieves the first year target of at least 82%.

Second Year Target:

Achieved

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

In FY 22-23, 82.1% of MRT calls requiring an acute response did not result in an involuntary examination. During this fiscal year, Florida substantially increased the capacity of MRTs by creating new teams and expanding existing teams. This increase resulted in the number of teams growing from 39 to 51. Although failing to achieve the target of 83%, Florida maintained a rate above 82%. Performance of MRTs in Florida can be measured in other ways, showing improvement and effectiveness. For example, the impact of the most recent expansion of teams can be seen in the reduction of average response times for calls meeting the threshold for an acute, in-person response. For FY 21-22, the average statewide response time for acute calls was 71 minutes. In FY 22-23, following the expansion, the average response time for acute calls was 50 minutes, a 21 minute improvement from the previous year.

How second year target was achieved (optional):

☐

Priority #:

2

Priority Area:

Intensive Team-Based Services (CAT Teams for Children with SED)

Priority Type:

MHS

Population(s):

SED

Goal of the priority area:

Expand intensive, team-based services to children with serious emotional disturbances (SED).

Objective:

Increase the number of children served by Community Action Teams (CAT).

Strategies to attain the goal:

Department representatives will educate various community partners on the eligibility, goals, approach to treatment, and location of current CAT teams to help generate more referrals.

Edit Strategies to attain the objective here:

(if needed)

☐

Annual Performance Indicators to measure goal success

Indicator #:

1

Indicator:

The number of children with Serious Emotional Disturbance (SED) served by Community Action Teams.

Baseline Measurement:

In FY 20-21, 3,423 children were served by Community Action Teams.

First-year target/outcome measurement:

By June 30, 2022, increase the number of children served by 50 (for a total of 3,473 children served)

Second-year target/outcome measurement:

By June 30, 2023, increase the number of children served by 50 (for a total of 3,523 children served)

New Second-year target/outcome measurement(if needed):

Data Source:

The data source is the CAT monthly supplemental data reports.

New Data Source(if needed):☐**Description of Data:**

This is the total number of young people served, unduplicated across all CAT teams.

New Description of Data:(if needed)☐**Data issues/caveats that affect outcome measures:**

None.

New Data issues/caveats that affect outcome measures:☐

Report of Progress Toward Goal Attainment

First Year Target:

☐

Achieved

☒

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

The number of individuals served by Community Action Teams (CAT) in FY 21-22 was 3,418, failing to reach the first year target to increase the numbers served by CATs by 50 (to 3,473).

In addition to CATs in Florida, the Department funds Care Coordination to assist individuals who are not effectively connected with the services and supports they need to transition successfully from higher levels of care to community-based care. Beginning in January 2021, the Department expanded the role of Care Coordination to include children/adolescents considered acute care high utilizers (defined as three or more admissions to a crisis stabilization unit or inpatient psychiatric hospital within 180 days). This expansion created an overlap in eligibility requirements and led to the Department urging Managing Entities to use Care Coordination as a way to help children on waiting lists for CAT services. This diverted individuals who may have been served by a CAT. In FY 21-22, 560 children and adolescents identified as acute care high utilizers received Care Coordination services.

The Florida legislature recently appropriated additional funding to expand team-based services, including CATs, which might increase the service capacity of existing teams and/or add new teams throughout the state.

How first year target was achieved (optional):

Second Year Target:

☒

Achieved

☐

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:☐**How second year target was achieved (optional):**

In FY 22-23, 3,576 individuals were served by Community Action Treatment (CAT) teams.

Priority #:

3

Priority Area:

Intensive Team-Based Services (Florida Assertive Community Treatment)

Priority Type:

MHS

Population(s):

SMI

Goal of the priority area:

Increase functioning among individuals served by FACT teams.

Objective:

Increase the percentage of individuals served by FACT teams through the Department maintain or improve their level of functioning.

Strategies to attain the goal:

The Department is exploring the use of a tool for measuring the fidelity of implementation of assertive community treatment services, and may pilot its implementation in the near future. Also, FACT teams are required to incorporate this indicator as a performance measure, pursuant to the contract Guidance Document 16 (FACT Handbook).

Edit Strategies to attain the objective here:
(if needed)

☐

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The percent of FACT clients served by the Department that either maintain or improve their level of functioning.

Baseline Measurement: 75% of FACT clients served by the Department maintained or improved their level of functioning in FY 20-21.

First-year target/outcome measurement: At least 77% of FACT clients served by the Department will either maintain or improve their level of functioning.

Second-year target/outcome measurement: At least 78% of FACT clients served by the Department will either maintain or improve their level of functioning.

New Second-year target/outcome measurement(if needed):

Data Source:

Quarterly Contract reports.

New Data Source(if needed):

☐

Description of Data:

The numerator is the number of FACT clients served by the Department that either maintained or improved their level of functioning. The denominator is the total number of FACT clients served by the Department. For these purposes, the Department will consider the performance of FACT teams that use the same assessment (FARS). Each individual served will be counted once using the most recently available sequentially administered FARS scores.

New Description of Data(if needed)

☐

Data issues/caveats that affect outcome measures:

None

New Data issues/caveats that affect outcome measures:

☐

Report of Progress Toward Goal Attainment

First Year Target:

☐

Achieved

☒

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

For FY 21-22, 76% of Florida Assertive Community Treatment (FACT) clients maintained or improved their level of functioning, which is below the first year target of at least 77%. Although the Department failed to meet the first year target, there was still an increase from the baseline level.

FACT teams utilize a transdisciplinary approach to deliver comprehensive care and promote independent, integrated living for individuals with serious mental illness. The teams are required to maintain minimum staffing standards to ensure ACT is implemented with fidelity; however, throughout FY21-22 numerous FACT teams experienced staffing shortages, particularly in nursing and the peer specialist roles. The target, to increase the level of functioning of individuals served by FACT teams, may not have been achieved due to these staffing shortages. Implementing FACT with a fully staffed team maximizes overall functional improvements and stability for individuals with serious mental illness.

The Florida legislature recently appropriated additional funding to expand team-based services, including FACT teams. The Department has directed Managing Entities to increase FACT team staffing with the goals to address staffing shortages and attract qualified

professionals.

How first year target was achieved (optional):

Second Year Target:

Achieved

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

☐

How second year target was achieved (optional):

In FY 22-23, 81% of Florida Assertive Community Treatment (FACT) clients maintained or improved their level of functioning.

Priority #:

4

Priority Area:

Services for Pregnant Women and Women with Dependent Children

Priority Type:

SAT

Population(s):

PWWDC

Goal of the priority area:

Improve services for pregnant women.

Objective:

Increase the rate of successful treatment completion among pregnant women served by the Department.

Strategies to attain the goal:

The Department will monitor discharges on an ongoing basis in coordination with regional Department representatives, Managing Entities, and Neonatal Abstinence Syndrome/Substance Exposed Newborn (NAS/SEN) Care Coordinators, and headquarters subject matter experts. Obstacles to successful completion will be described and analyzed. The Department will also identify and promote relevant training materials designed to improve retention and completion rates. The Women's Services Coordinator is responsible for reviewing data submitted by the Managing Entities, addressing discrepancies, completing quarterly reports, and sharing resources. Additionally, the Statewide NAS/SEN Care Coordinator is responsible for overseeing a statewide coordinated response across programs for families at risk of or with infants born substance exposed and for providing guidance to six regional NAS/SEN Care Coordinators. The Department also continues to contract with the Florida Association of Alcohol and Drug Abuse and the Florida Certification Board to provide online trainings and resources on evidence-based practices and treatment specific to pregnant women.

Edit Strategies to attain the objective here:

(if needed)

☐

Annual Performance Indicators to measure goal success

Indicator #:

1

Indicator:

The percent of discharges among pregnant women that are successful.

Baseline Measurement:

In FY 20-21, 61.3% of discharges among pregnant women were successful.

First-year target/outcome measurement:

By June 30, 2022, increase the percentage of pregnant women discharges that are successful by 2 percentage points (from 61.3% up to 63.3%).

Second-year target/outcome measurement:

By June 30, 2023, increase the percentage of pregnant women discharges that are successful by 2 percentage points above the FY 21-22 performance.

New Second-year target/outcome measurement(if needed):

Data Source:

The Department's Financial and Services Accountability Management System (FASAMS)

New Data Source(if needed):

☐

Description of Data:

The numerator is the number of pregnant women discharges reflecting successful completion, comprised of three discharge reason codes: (1) successfully completed treatment, (2) successfully completed transfer to another program/facility, and (3) successfully

completed transfer to another program/facility that is not in the reporting system. The denominator is the number of all pregnant women discharges.

New Description of Data:(if needed)

☐

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

☐

Report of Progress Toward Goal Attainment

First Year Target:

☐ Achieved

☒ Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

In FY 21-22, 36% of discharges among pregnant women were successful, failing to meet the first year target of 63.3%. The Department is exploring both nationwide contextual factors and provider-level variables that might be associated with successful completion during this period (July 1, 2021 through June 30, 2022). Several findings are worth considering. First, pandemic-related stress, fear, and restrictions all may have played a contributing role. Surveys of pregnant women show that "ratings of stress, depression, and substance use remained consistently poor over time during the pandemic and mental/emotional health got progressively worse." Researchers found a relationship between elevated perceived stress and depression and subsequent reports of using substances to cope with social distancing, isolation, or stress related to the pandemic. COVID-19 was a significant source of stress for pregnant women. According to a survey of 4,451 pregnant women, nearly half (46%) lost income due to the pandemic. Furthermore, 27% reported high levels of Preparedness Stress and 29% reported Perinatal Infection Stress, with about 18% reporting high levels of both. Infections fears may have deterred continued participation in face-to-face group counseling or group residential treatment. The Centers for Disease Control and Prevention did not declare COVID-19 vaccines as safe for pregnant women until August 11, 2021, and vaccine hesitancy remains an ongoing challenge to this day. Additionally, ongoing post-pandemic behavioral health workforce shortages and turnover, particularly among case managers and care coordinators, may have impacted treatment quality and, by extension, program completion rates. In summation, fear of infection through group living arrangements in residential treatment programs, the need to establish or maintain employment, and increased substance use as a response to stress, and staff vacancies and turnover, may have all contributed to reduced rates of successful treatment completion among pregnant women. With respect to changes needed to meet the target in the future, the Department is working with providers and Managing Entities to review the queries used to extract the discharge records, evaluate the continued inclusion of "Moved Out of State" as an unsuccessful discharge code, and identify factors associated with successful completion and dropout. Providers showing high rates of successful completion are being asked to describe what is working in the interest of advising and assisting providers with lower rates. Exploratory conversations conducted to date suggest that stable income through employment contributes to successful completion by facilitating access to post-discharge housing, with one program observing that women save about 75% of their income to ensure housing when they are discharged. Other variables that might contribute to successful completion include time spent in individual therapy sessions and access to specialty services that bolster skills related to coping with trauma, managing finances, parenting, etc. The Department is also examining exactly which program rules and policies are often violated and resulting in involuntary discharges, to explore whether formal changes to policy or practice are needed.

How first year target was achieved (optional):

Second Year Target:

☐ Achieved

☒ Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

In FY 22-23, 33.9% of discharges among pregnant women were successful, failing to meet the second year target. Although the target was not met, three of the seven Managing Entities (MEs) in Florida exceeded the target.

Data analysis revealed that some discharge reasons identified as unsuccessful to calculate the baseline measure should have been excluded. When the data was run again with the questionable discharge reasons excluded, four of the seven MEs exceeded the target, and the remaining three missed the target by 5% or less.

For the next grant cycle, the Department will ensure that inappropriate reasons for discharge, such as moving out of the state, are not counted as unsuccessful, allowing for a more accurate measure of successful discharge. This will allow the MEs and providers to continue to use existing strategies and develop new strategies to increase successful discharges for pregnant women.

How second year target was achieved (optional):

☐

Priority #:

5

Priority Area:

Coordinated Specialty Care (CSC) for Early Serious Mental Illness (ESMI)

Priority Type:

MHS

Population(s):

Goal of the priority area:

Improve functioning or symptom severity among individuals served by Coordinated Specialty Care (CSC) for Early Serious Mental Illness (ESMI) programs.

Objective:

Maintain a high percent of individuals served that experience improvements in functioning or symptom severity.

Strategies to attain the goal:

The Department will monitor progress, periodically consult with the teams regarding obstacles, and secure any training/TA needed to address inadequate progress.

Edit Strategies to attain the objective here:

(if needed)

☐

Annual Performance Indicators to measure goal success

Indicator #:

1

Indicator:

The percent of individuals served by CSC-ESMI teams that experience improvements in functioning or symptom severity.

Baseline Measurement:

80% of individuals served by CSC for ESMI programs experienced improvements in functioning or symptom severity (FY 20-21).

First-year target/outcome measurement:

At least 80% of individuals served by CSC for ESMI in FY 21-22 experience improvements in functioning or symptom severity.

Second-year target/outcome measurement:

At least 80% of individuals served by CSC for ESMI in FY 22-23 experience improvements in functioning or symptom severity.

New Second-year target/outcome measurement(if needed):

Data Source:

Data is reported by the CSC-ESMI teams and based on various instruments measuring functional improvement, including the Brief Psychiatric Rating Scale and Basis-32.

New Data Source(if needed):

☐

Description of Data:

The numerator is the unduplicated number of initial/baseline assessments. The denominator is the unduplicated number of the most recent subsequent assessments showing improvements in functioning or symptom severity.

New Description of Data:(if needed)

☐

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

☐

Report of Progress Toward Goal Attainment

First Year Target:

Achieved

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

In FY 21-22, 78.7% of individuals served by CSC for ESMI programs experienced improvements in functioning or symptom severity, which is below the first year target of at least 80%.

All except for three teams reported success rates of 80% or higher. Unfortunately, their rates were low enough to pull the overall percentage down.

Coordinating discussion with high- and low-achieving providers will provide insight into what works and areas for meaningful improvement. [HOLD for potential re-write focusing on an exploratory survey analysis of the providers re: factors perceived to be associated with functional improvement vs. decompensation]

Below is the list of teams ranked by percentage of individuals served by CSC for ESMI teams who experienced improvements in function or symptom severity. Percentages are based on data reported by the Managing Entities via the Block Grant Reporting Template. Note that Clay Behavioral Health Center, Inc. and Citrus Health Network, Inc. have multiple teams and are listed multiple times below.

Life Management Center (54%)
Early Treatment Program - South Broward (56%)
Early Treatment Program - Central Broward (63%)
Success 4 Kids and Families (82%)
Clay Behavioral Health Center, Inc. (88%)
Citrus Health Network, Inc. (94%)
Aspire Health Partners (98%)
Citrus Health Network, Inc. (100%)
Clay Behavioral Health Center, Inc. (100%)
Peace River Center (100%)
South County Medical Health Center - NAVIGATE Program (100%)

How first year target was achieved (optional):

Second Year Target:

Achieved

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

In FY 22-23, 77.9% of individuals served by CSC for ESMI programs experienced improvements in functioning or symptom severity.

Only four teams reported success rates of 80% or higher; however, the overall rate was just below the target.

Many teams are relatively new and only recently able to provide services. A majority of the teams, in fact, were not established until COVID-19 and American Rescue Plan Act Block Grant funds were awarded. Further, staffing shortages have led to teams having substantial difficulty hiring and maintaining sufficient staff.

There are several possibilities being explored to examine what's working for the highest achieving teams and where things can be improved. One aspiration is to develop a data collection that can target team performance and illustrate the need for this service throughout the state. Additionally, discussions with providers will provide insight.

Below is the list of teams included in this measure ranked by percentage of individuals served by CSC for ESMI teams who experienced improvements in functioning or symptom severity. Percentages are based on data reported by the Managing Entities via the Block Grant Data Reporting Template. Note that Clay Behavioral Health Center, Inc. and Citrus Health Network, Inc. have multiple teams and are listed multiple times below.

Clay Behavioral Health Center, Inc. (100%)
Clay Behavioral Health Center, Inc. (100%)
Peace River Center (92%)
Citrus Health Network, Inc. (90%)
SMA Healthcare, Inc. (90%)
David Lawrence Mental Health Center (83%)
Aspire Health Partners, Inc. (81%)
Citrus Health Network, Inc. (81%)
Success 4 Kids & Families (81%)
South County Mental Health Center (80%)
Early Treatment Program - South Broward (70%)
Life Management Center (66%)

Early Treatment Program - Central Broward (58%)
Early Treatment Program - Treasure Coast (50%)

How second year target was achieved (optional):

☐

Priority #: 6

Priority Area: Infectious Disease Control

Priority Type: SAT

Population(s): EIS/HIV

Goal of the priority area:

Ensure the implementation of Florida's HIV EIS set-aside is cost-effective.

Objective:

Ensure HIV EIS funds are cost-effective by targeting services to maintain an HIV test positivity rate of at least 0.10%.

Strategies to attain the goal:

The Department analyze historical provider-level variation in test positivity rates to identify factors associated with both high and low performance, and share findings and recommendations with any underperforming providers.

Edit Strategies to attain the objective here:

(if needed)

☐

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The percent of HIV tests that are positive (among providers reporting at least one positive test).

Baseline Measurement: In FY 20-21, the percent of HIV tests that were positive (among providers reporting at least one positive test) was 1.01%.

First-year target/outcome measurement: In FY 21-22, the percent of HIV tests that are positive (among providers reporting at least one positive test) will be at or above 0.10%

Second-year target/outcome measurement: In FY 22-23, the percent of HIV tests that are positive (among providers reporting at least one positive test) will be at or above 0.10%

New Second-year target/outcome measurement(if needed):

Data Source:

Data are self-reported by providers through contract Template 2 (SAMH Block Grant Reporting Template).

New Data Source(if needed):

☐

Description of Data:

The numerator is the number of positive HIV tests and the denominator is the total number of tests administered.

New Description of Data:(if needed)

Report of Progress Toward Goal Attainment

First Year Target:

Achieved

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):

In FY 21-22 among providers reporting at least one positive HIV test, the percent of tests that were positive exceeded the first year target of 0.10%. Providers reported 162 positive HIV tests out of 10,989 total tests conducted, resulting in a positivity rate of 1.47% and achieving the first year target.

Second Year Target:

Achieved

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

How second year target was achieved (optional):

In FY 22-23, among providers reporting at least one positive HIV test, the percent of tests that were positive was 1.53%, exceeding the first year target of at least 0.10%.

Priority #:

7

Priority Area:

Infectious Disease Control

Priority Type:

SAT

Population(s):

TB

Goal of the priority area:

Prevent the spread of tuberculosis (TB) through screening of at-risk individuals and behavioral health services that support TB medication adherence and TB treatment completion.

Objective:

Maintain a low tuberculosis case rate.

Strategies to attain the goal:

Collaborate with the Department of Health regarding opportunities to convey behavioral health resources and training opportunities.

Edit Strategies to attain the objective here:
(if needed)

Annual Performance Indicators to measure goal success

Indicator #:

1

Indicator:

The tuberculosis case rate (per 100,000).

Baseline Measurement:

Florida's 2020 tuberculosis case rate was 1.9 per 100,000.

First-year target/outcome measurement:

Maintain a 2021 tuberculosis case rate at or below 2.5 per 100,000.

Second-year target/outcome measurement:

Maintain a 2022 tuberculosis case rate at or below 2.0 per 100,000.

New Second-year target/outcome measurement(if needed):

Data Source:

Tuberculosis cases per 100,000 come from the Florida Department of Health and are published at www.flhealthcharts.com.

New Data Source(if needed):

Description of Data:

For the baseline (Calendar Year 2020), the numerator is 412 tuberculosis cases, and the denominator is 21,640,766 individuals, yielding a rate of 1.9 per 100,000.

New Description of Data:(if needed)

☐

Report of Progress Toward Goal Attainment

First Year Target:

☒

Achieved

☐

Not Achieved (if not achieved,explain why)

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):

The tuberculosis case rate for FY 21-22 was 2.3 per 100,000.

Second Year Target:

☐

Achieved

☒

Not Achieved (if not achieved,explain why)

Reason why target was not achieved, and changes proposed to meet target:

In FY 22-23, the tuberculosis case rate was 2.4 per 100,000. Although the performance indicator was not achieved, Florida's case rate trend is similar to that seen in other states and nationally and suggests a possible return to pre-pandemic levels of infection.

Schidildknecht, K. R., Prat, R. H., Feng, P.-J. I., Price, S. F., & Self, J. L. Tuberculosis - United States, 2022. MMWR Morb Mortal Wkly Rep 2023;72:297-303.

How second year target was achieved (optional):

☐

Priority #:

8

Priority Area:

Primary Prevention

Priority Type:

SAP

Population(s):

PP, Other (Adolescents w/SA and/or MH, Children/Youth at Risk for BH Disorder)

Goal of the priority area:

Promote evidence-based prevention services delivered by a professional prevention workforce.

Objective:

- (1) Classify at least half of all the environmental strategies currently being implemented as either evidence-based or not.
- (2) Identify and increase access to evidence-based drug prevention programs that also have experimental evidence of effectiveness at preventing symptoms of depression.
- (3) Identify and increase access to evidence-based drug prevention programs that also have experimental evidence of effectiveness at preventing suicide-related thoughts and behaviors.
- (4) Identify and increase access to programs that address Adverse Childhood Experiences by helping parents and youth build skills to manage stress and emotions.
- (5) Publish a proposal to reallocate set-aside funds from ineffective programs or untested programs to effective programs.
- (6) Develop and administer a prevention workforce survey to identify gaps in the prevention workforce and publish recommendations for addressing the identified gaps.
- (7) Implement at least two of the published recommendations based on the prevention workforce survey findings.

Strategies to attain the goal:

With respect to identifying programs with evidence of effectiveness at reducing substance use, symptoms of depression, and suicide-related thoughts

and behaviors, the Title IV-E Prevention Services Clearinghouse will be consulted for reviews of the evidence on mental health, substance use, and parent skill-based programs/services. Archived evidence reviews previously hosted on SAMHSA's NREPP will also be examined. With respect to the evidence for environmental prevention strategies, the Department may consult standards established by the Society of Prevention Research in Standards of Evidence for Efficacy, Effectiveness, and Scale-up Research in Prevention Science: Next Generation (2015) and the Centers for Disease Control and Prevention's Guide to Community Preventive Services. Progress toward the objectives will be monitored and discussed on recurring conference calls between the Department's Prevention Coordinator and each Managing Entity's Prevention Coordinator.

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The number of objectives achieved.

Baseline Measurement: Zero objectives achieved.

First-year target/outcome measurement: By June 30, 2022 achieve 3 out the 7 objectives.

Second-year target/outcome measurement: By June 30, 2023, achieve 5 out of the 7 objectives.

New Second-year target/outcome measurement(if needed):

Data Source:

All information associated with the objectives that comprise the performance indicator (i.e., program lists, priorities, surveys, recommendations, process measures, proposals, etc.) will be reported by the Department's Prevention Coordinator.

New Data Source(if needed):

☐

Description of Data:

The data varies from objective to objective, but it includes published reports, program lists, priorities, surveys, recommendations, and proposals.

New Description of Data:(if needed)

☐

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

☐

Report of Progress Toward Goal Attainment

First Year Target:

☒

Achieved

☐

Not Achieved *(if not achieved, explain why)*

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):

Three of seven objectives were completed, achieving the first year target for this performance indicator. The three objectives listed below are accomplished.

1: Classify at least half of all environmental strategies currently being implemented as either evidence-based or not.

6: Develop and administer a prevention workforce survey to identify gaps in the prevention workforce and publish recommendations for addressing the identified gaps.

7: Implement at least two of the published recommendations based on the prevention workforce survey findings.

To achieve Objective 1, the Department conducted literature reviews for 13 out of 20 environmental strategies being implemented in Florida. The resulting report is attached.

To achieve Objectives 6 and 7, a prevention workforce survey was developed and administered by the Florida Alcohol and Drug Abuse Association (FADAA). The report detailing the findings and recommendations is attached. Recommendations 1 and 2 were implemented, see below.

RECOMMENDATION 1: Advertise and promote the Florida Behavioral Health Conference Prevention Training Track.

Survey findings were used to develop the Prevention Training Track for the 2022 Florida Behavioral Health Conference. Communications about the conference and Prevention Training Track were shared with Department staff, Managing Entities, providers, advocates, and other stakeholders around the state.

RECOMMENDATION 2: Develop and deliver webinars and workshops through the FY 22-23 FADAA training and technical assistance contract.

Trainings and webinars developed to target gaps identified in the survey are set to be delivered through the FY 22-23 FADAA training and technical assistance contract. The first webinars "Prevention Ethics", "Substance Use Prevention Messaging for Emerging Adults and College Students", and "Integrating Substance Use Prevention with Wellness" were delivered in September 2022 and November 2022. The next webinar will be "Role and Impact of Social Media on Behavioral Health Prevention" in December 2022.

RECOMMENDATION 3: Facilitate prevention skills training and technical assistance.

Second Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

☐

How second year target was achieved (optional):

In addition to the three objectives accomplished last year, an objective was completed in FY 22-23, bringing the total to four out of seven, achieving the second year target for this performance indicator. The objective below is accomplished.

3. Identify and increase access to evidence-based drug prevention programs that also have experimental evidence of effectiveness at prevention suicide-related thoughts and behaviors.

The Department reviewed the literature and drafted a report to achieve this objective. The resulting report is attached. ***The report is still being finalized and will be attached once complete.***

Priority #: 9

Priority Area: Recovery Support Services and Recovery Oriented Systems of Care

Priority Type: SAT, MHS

Population(s): SMI, SED, PWWDC, Other (Adolescents w/SA and/or MH, Criminal/Juvenile Justice, Homeless, Underserved Racial and Ethnic Minorities)

Goal of the priority area:

Establish an integrated, values-based Recovery Oriented System of Care where recovery is expected and achieved through meaningful partnerships and shared decision-making.

Objective:

- (1) Develop and pilot a statewide provider-level tracking system for recovery domain scores obtained during Recovery-Oriented Quality Improvement monitoring visits.
- (2) Maintain a score of "4" or higher in each of the four core domains of recovery (among providers with an established baseline score).
- (3) Increase the number of RCOs in the early development phase from 13 up to 15.
- (4) Increase the number of RCOs that have transitioned from the early development phase to the existing/established stage from 11 up to 13.
- (5) Increase the number of RCOs that apply for accreditation through the Council on Accreditation of Peer Recovery Support Services (CAPRSS) from 3 up to 5.
- (6) Analyze variation in billing codes for peer services and publish a list of recommendations to break-out and specify new codes as needed.
- (7) Publish a report describing and evaluating the impact of recent changes and enhancements to the Consumer Satisfaction Survey.

- (8) Publish a report describing and evaluating the impact of the new Recovery Management Practices contract Guidance Document 35.
- (9) Neonatal Abstinence Syndrome/Substance Exposed Newborn (NAS/SEN) Care Coordinators will provide training on how to link pregnant women with substance use disorders to peer recovery support services through RCOs.

Strategies to attain the goal:

The Department’s Statewide Coordinator of Integration and Recovery Services will collaborate with system partners on each of the objectives.

Edit Strategies to attain the objective here:
(if needed)

☐

Annual Performance Indicators to measure goal success

Indicator #: 1

Indicator: The number of objectives achieved.

Baseline Measurement: Zero objectives achieved.

First-year target/outcome measurement: By June 30, 2022, achieve 1out of the 9 objectives.

Second-year target/outcome measurement: By June 30, 2023 achieve 3 out of the 9 objectives.

New Second-year target/outcome measurement(if needed):

Data Source:

All information regarding the completion of each objective will be reported by the Department’s Statewide Coordinator of Integration and Recovery Services.

New Data Source(if needed):

☐

Description of Data:

The data varies from objective to objective, but it includes published reports, published analyses, and RCO development phase reports.

New Description of Data:(if needed)

☐

Data issues/caveats that affect outcome measures:

None.

New Data issues/caveats that affect outcome measures:

☐

Report of Progress Toward Goal Attainment

First Year Target: ☒ Achieved ☐ Not Achieved (if not achieved,explain why)

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):

The first year target (achieve 1 out of 9 objectives) is achieved. Two objectives, listed below, were accomplished.

Objectives:

- 4. Increase the number of recovery community organizations (RCO) that have transitioned from the early development phase to the existing/established stage from 11 up to 13. (Achieved)
- 5. Increase the number of RCOs that apply for accreditation through the Council on Accreditation of Peer Recovery Support Services from 3 up to 5. (Achieved)

In FY 21-22, multiple new RCOs were on-boarded and transitioned from early development into the existing stage, exceeding the target and bringing the total number of existing RCOs in Florida to 15 and achieving objective 4. Recovery Point Palatka transitioned to the

existing stage in March 2022. Rise up for Recovery transitioned to the existing stage in April 2022.

Additionally, two RCOs applied for accreditation in FY 21-22, achieving objective 5. The Miami Project applied in May 2022, and Recovery Epicenter applied in June 2022.

Second Year Target:

Achieved

Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

How second year target was achieved (optional):

The second year target (achieve 3 out of 9 objectives is achieved. In addition to the two objectives achieved last year, an additional objective, listed below, was accomplished.

Objective:

3. Increase the number of RCOs in the early development phase from 13 up to 15.

By the end of FY 22-23, the Department has 15 established RCOs. Eleven are currently in the early development phase and the others have moved beyond to the emerging or existing phases.

¹The 24-month expenditure period for the COVID-19 Relief supplemental funding is **March 15, 2021 – March 14, 2023**, which is different from the expenditure period for the "standard" SUPTRS BG and MHBG. If your state or territory has an approved No Cost Extension (NCE) for the FY 21 SUPTRS BG COVID-19 Supplemental Funding, you have until March 14, 2024 to expend the COVID-19 Relief Supplemental Funds. However, grantees are requested to annually report SUPTRS BG COVID-19 Supplemental Funding expenditures in accordance with requirements included in their current Notice of Award Terms and Conditions (NoA). Per the instructions, the standard SUPTRS BG expenditures are for the state planned expenditure period of July 1, 2023 – June 30, 2025 for most states.

²The expenditure period for ARP supplemental funding is **September 1, 2021 – September 30, 2025**, which is different from the expenditure period for the "standard" MHBG/SUPTRS BG. Per the instructions, the planning period for standard MHBG/SUPTRS BG expenditures is July 1, 2023 – June 30, 2025.

³Prevention other than primary prevention

⁴Only designated states as defined in 42 U.S.C. § 300x-24(b)(2) and 45 CFR § 96.128(b) for the applicable federal fiscal year should enter information in this row. This may include a state or states that were previously considered "designated states" during any of the three prior FFYs for which a state was applying for a grant. See EIS/HIV policy change in SUPTRS BG Annual Report instructions.

Please indicate the expenditures are actual or estimated.

SUPTRS BG Table 5a - Primary Prevention Expenditures

The state or jurisdiction must complete SUPTRS BG Table 5a. There are six primary prevention strategies typically funded by principal agencies administering the SUPTRS BG. Expenditures within each of the six strategies or Institute of Medicine Model (IOM) should be directly associated with the cost of completing the activity or task. For example, information dissemination may include the cost of developing pamphlets, the time of participating staff and/or the cost of public service announcements, etc. If a state plans to use strategies not covered by these six categories or the state is unable to calculate expenditures by strategy, please report them under "Other" in Table 5a.

III: Expenditure Reports

Table 8a - Maintenance of Effort for State Expenditures for SUD Prevention, Treatment, and Recovery

This Maintenance of Effort table provides a description of non-federal state expenditures for authorized activities to prevent and treat substance use and provide recovery services flowing through the Single State Agency (SSA) during the state fiscal year immediately preceding the federal fiscal year for which the state is applying for funds. Dates given are for the FFY 2024 SUPTRS BG Report. For the FFY 2025 SUPTRS BG report, please increase each year by one. For detailed instructions, see those in BGAS.

Expenditure Period Start Date: 07/01/2022 Expenditure Period End Date: 06/30/2023

Total Single State Agency (SSA) Expenditures for Substance Abuse Prevention and Treatment		
Period (A)	Expenditures (B)	<u>B1(2021) + B2(2022)</u> 2 (C)
SFY 2021 (1)	\$106,530,263.00	
SFY 2022 (2)	\$106,197,244.00	\$106,363,753.50
SFY 2023 (3)	\$110,339,193.00	

Are the expenditure amounts reported in Column B "actual" expenditures for the State fiscal years involved?

SFY 2021	Yes	<input checked="" type="checkbox"/>	No
SFY 2022	Yes	<input checked="" type="checkbox"/>	No
SFY 2023	Yes	<input checked="" type="checkbox"/>	No

Did the state or jurisdiction have any non-recurring expenditures as described in 42 U.S.C. § 300x-30(b) for a specific purpose which were not included in the MOE calculation?

Yes No ☒

If yes, specify the amount and the State fiscal year:

If yes, SFY:

Did the state or jurisdiction include these funds in previous year MOE calculations?

Yes No

When did the State or Jurisdiction submit an official request to SAMHSA to exclude these funds from the MOE calculations?

If estimated expenditures are provided, please indicate when actual expenditure data will be submitted to SAMHSA:

Please provide a description of the amounts and methods used to calculate the total Single State Agency (SSA) expenditures for substance use disorder prevention and treatment 42 U.S.C. §300x-30.

0930-0168 Approved: 06/15/2023 Expires: 06/30/2025

III: Expenditure Reports

Table 8b - Expenditures for Services to Pregnant Women and Women with Dependent Children

This MOE table provides a report of state and SUBG funds expended on specialized SUD treatment services for pregnant women and women with dependent children for the state fiscal year immediately preceding the FFY for which the state is applying for funds.

Expenditure Period Start Date: 07/01/2022 Expenditure Period End Date: 06/30/2023

Base

Period	Total Women's Base (A)
SFY 1994	\$ 9,327,217.00

Maintenance

Period	Total Women's Base (A)	Total Expenditures (B)	Expense Type
SFY 2021		\$ 10,963,856.00	
SFY 2022		\$ 11,464,249.00	
SFY 2023		\$ 10,801,387.00	<input checked="" type="radio"/> Actual <input type="radio"/> Estimated

Enter the amount the State plans to expend in SFY 2024 for services for pregnant women and women with dependent children (amount entered must be not less than amount entered in Section III: Table 8b – Expenditures for Services to Pregnant Women and Women with Dependent Children, Base, Total Women’s Base (A) for Period of (SFY 1994)): \$ 10,000,000.00;

Please provide a description of the amounts and methods used to calculate the base and, for 1994 and subsequent fiscal years, report the Federal and State expenditures for such services for services to pregnant women and women with dependent children as required by 42 U.S.C. §300x-22(b)(1).

0930-0168 Approved: 06/15/2023 Expires: 06/30/2025

Footnotes:
Table 8b MOE & PWWDC Methodology Narrative Explanation; Both the total amount of state funding and the total amount of federal funding amounts are tracked and calculated through specific OCAs (Other Cost Accumulators) for PWWDC services. Each year the state budgets \$10,000,000 in state general revenue towards services for pregnant and parenting women and their dependents. All expenditures for this special population above and beyond the budgeted state funds are paid through federal block grant funding. The federal expenditures are based on real-time service needs. The base amount of \$9,327,217 is the total expenditures towards PWWDC from 1994. This amount was established by SAMHSA and is prepopulated in BGAS. KRG 10/25/2023

Pregnant and Parenting Women Expenditures		
State Fiscal Year 2022/23		
SFY Quarter	Reporting Period	MS027 (Federal)
1st	July 1 - Sept 30	\$269,952
2nd	Oct 1 - Dec 31	\$339,767
3rd	Jan 1 - March 31	\$514,211
4th	April 01 - June 30	\$817,627
YTD Total Federal		\$1,941,556
State General Revenue for Pregnant and Parenting Women under OCA MS081 YTD Total		\$8,859,831
Total State and Federal for PWWDC:		\$10,801,387

IV: Population and Services Reports

Table 9 - Prevention Strategy Report

This table requires additional information (pursuant to Section 1929 of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-29) about the primary prevention activities conducted by the entities listed on SUPTRS BG Table 7.

Expenditure Period Start Date: 10/1/2021 Expenditure Period End Date: 9/30/2023

Column A (Risks)	Column B (Strategies)	Column C (Providers)
Other	1. Information Dissemination	
	1. Clearinghouse/information resources centers	6
	2. Resources directories	12
	3. Media campaigns	34
	4. Brochures	26
	5. Radio and TV public service announcements	17
	6. Speaking engagements	54
	7. Health fairs and other health promotion, e.g., conferences, meetings, seminars	42
	8. Information lines/Hot lines	7
	9. Life Skills Training, In Shape PPW, SPORT PPW, Red Ribbon week, Natural High	22
	2. Education	
	1. Parenting and family management	39
	2. Ongoing classroom and/or small group sessions	58
	3. Peer leader/helper programs	12
	4. Education programs for youth groups	43
	5. Mentors	11
	6. Preschool ATOD prevention programs	5
	7. KTL, Retail beverage server training, LST, Lock your meds, SAP, Drug take backs, TGFD, red ribbon, In Shape PPW, Naloxone training, Support for substance exposed newborns, Sport PPT	45
	3. Alternatives	
	1. Drug free dances and parties	21
	2. Youth/adult leadership activities	21
	3. Community drop-in centers	24
	4. Community service activities	2
	5. Outward Bound	22

7. Natural High, Too Good for Drugs	25
4. Problem Identification and Referral	
1. Employee Assistance Programs	1
2. Student Assistance Programs	11
3. Driving while under the influence/driving while intoxicated education programs	10
4. Project Success, TGFD, Ripple Effects, TGFV, Toolkits/resource guide. Identification of youth at high risk for referral to more intense services.	26
5. Community-Based Process	
1. Community and volunteer training, e.g., neighborhood action training, impactor-training, staff/officials training	54
2. Systematic planning	73
3. Multi-agency coordination and collaboration/coalition	67
4. Community team-building	51
5. Accessing services and funding	22
6. Resource directory development, Youth leadership summit, ALC, AP, MVP	32
6. Environmental	
1. Promoting the establishment or review of alcohol, tobacco, and drug use policies in schools	32
2. Guidance and technical assistance on monitoring enforcement governing availability and distribution of alcohol, tobacco, and other drugs	24
3. Modifying alcohol and tobacco advertising practices	15
4. Product pricing strategies	18
5. Friday Night Done Right, Know the Law, Social Norm Campaign, Strengthening Families, positive action	33

0930-0168 Approved: 06/15/2023 Expires: 06/30/2025

Footnotes:

IV: Population and Services Reports

Table 10a – Treatment Utilization Matrix

This table is intended to capture the count of persons with initial admissions and subsequent admission(s) to an episode of care.

Expenditure Period Start Date: 7/1/2022

Expenditure Period End Date: 6/30/2023

Level of Care	SUPTRS BG Number of Admissions > Number of Persons Served		COVID-19 Number of Admissions > Number of Persons Served ¹		ARP Number of Admissions > Number of Persons Served ²		SUPTRS BG Service Costs			COVID-19 Costs ¹			ARP Costs ²		
	Number of Admissions (A)	Number of Persons Served (B)	Number of Admissions (C)	Number of Persons Served (D)	Number of Admissions (E)	Number of Persons Served (F)	Mean (G)	Median (H)	Standard Deviation (I)	Mean Cost (J)	Median Cost (K)	Standard Deviation (L)	Mean Cost (M)	Median Cost (N)	Standard Deviation (O)
DETOXIFICATION (24-HOUR CARE)															
1. Hospital Inpatient	0	0	0	0	0	0									
2. Free-Standing Residential	13,912	12,085	26	26	0	0									
REHABILITATION/RESIDENTIAL															
3. Hospital Inpatient	0	0	0	0	0	0									
4. Short-term (up to 30 days)	1,098	1,086	177	175	70	70									
5. Long-term (over 30 days)	9,246	8,622	996	989	535	534									
AMBULATORY (OUTPATIENT)															
6. Outpatient	25,530	24,677	3,065	3,025	505	502									
7. Intensive Outpatient	35	35	0	0	0	0									
8. Detoxification	69	69	0	0	0	0									
MOUD MEDICATION ASSISTED TREATMENT															
9. MOUD Medication-Assisted Detoxification	4,243	3,972	219	215	56	55									
10. MOUD Medication-Assisted Treatment Outpatient	1,220	1,190	3	3	12	12									

Please explain why Column A (SUPTRS BG and COVID-19 Number of Admissions) are less than Column B (SUPTRS BG and COVID-19 Number of Persons Served)

¹ The 24-month expenditure period for the COVID-19 Relief supplemental funding is March 15, 2021 – March 14, 2023, which is different from the expenditure period for the "standard" SUPTRS BG and MHBG. However, grantees are requested to annually report SUPTRS BG COVID-19 Supplemental Funding expenditures in accordance with requirements included in their current NoA Terms and Conditions.

² The expenditure period for The American Rescue Plan Act of 2021 (ARP) supplemental funding is **September 1, 2021 – September 30, 2025**, which is different from the expenditure period for the "standard" MHBG/SUPTRS BG. Per the instructions, the planning period for standard MHBG/SUPTRS BG expenditures is July 1, 2023 – June 30, 2025.

³ In FY 2020 SAMHSA modified the "Level of Care" (LOC) and "Type of Treatment Service/Setting" to "Medication-Assisted Treatment" and "Medication-Assisted Treatment," respectively. In prior SUPTRS BG Reports, the LOC was entitled "Opioid Replacement Therapy" and the Type of Treatment Service/Setting included "Opioid Replacement Therapy," Row 9 and "ORT Outpatient," Row 10. The changes inadvertently created a barrier for data analysis as one-to-one mapping of the data submitted in the FY 2020 Table 10 to the data submitted in prior Reports is not possible. In the current and future SUPTRS BG Reports, the LOC is "MOUD & Medication Assisted Treatment" and the Types of Treatment Service/Setting will include "MOUD Medication-Assisted Treatment Detoxification," Row 9 and "MOUD & Medication Assisted Treatment Outpatient," Row 10. MOUD & Medication-Assisted Treatment Withdrawal Management includes hospital detoxification, residential detoxification, or ambulatory detoxification services/settings AND Opioid Medication-Assisted Treatment. MOUD & Medication Assisted Treatment Outpatient includes outpatient services/settings AND Opioid Medication-Assisted Treatment.

IV: Population and Services Reports

Table 12 - SUPTRS BG Early Intervention Services Regarding the Human Immunodeficiency Virus (EIS/HIV) in Designated States

Expenditure Period Start Date: 7/1/2022 Expenditure Period End Date: 6/30/2023

Early Intervention Services for Human Immunodeficiency Virus (HIV)		
1.	Number of EIS/HIV projects among SUPTRS BG sub-recipients in the state	Statewide: <u>27</u> Rural: <u>16</u>
2.	Total number of individuals tested through SUPTRS BG sub-recipient EIS/HIV projects:	16,890
3.	Total number of HIV tests conducted with SUPTRS BG EIS/HIV funds:	16,750
4.	Total number of tests that were positive for HIV	237
5.	Total number of individuals who prior to the 12-month reporting period were unaware of their HIV infection	140
6.	Total number of HIV-infected individuals who were diagnosed and referred into treatment and care during the 12-month reporting period	194
7.	Total number of persons at risk for HIV/AIDS referred for PrEP services?	
Identify barriers, including State laws and regulations, that exist in carrying out HIV testing services: The most commonly identified barriers are related to fear (e.g., stigma, worries about confidentiality), obtaining client consent for testing, reaching at-risk populations who may not be able to access treatment, and staff shortages.		

0930-0168 Approved: 06/15/2023 Expires: 06/30/2025

Footnotes:

The Department does not currently track numbers of individuals referred for PREP services.

IV: Population and Services Reports

Table 13 - Charitable Choice – Required

Under Charitable Choice Provisions; Final Rule (42 CFR Part 54), states, local governments, and religious organizations, such as SAMHSA grant recipients, must: (1) ensure that religious organizations that are providers provide to all potential and actual program beneficiaries (services recipients) notice of their right to alternative services; (2) ensure that religious organizations that are providers refer program beneficiaries to alternative services; and (3) fund and/or provide alternative services. The term "alternative services" means services determined by the state to be accessible and comparable and provided within a reasonable period of time from another substance use disorder provider ("alternative provider") to which the program beneficiary (services recipient) has no religious objection. The purpose of this table is to document how the state is complying with these provisions.

Expenditure Period Start Date: 7/1/2022 Expenditure Period End Date: 6/30/2023

Notice to Program Beneficiaries - Check all that apply:

☐

Used model notice provided in final regulation.

Used notice developed by State (please attach a copy to the Report).

State has disseminated notice to religious organizations that are providers.

☒

State requires these religious organizations to give notice to all potential beneficiaries.

Referrals to Alternative Services - Check all that apply:

☒

State has developed specific referral system for this requirement.

State has incorporated this requirement into existing referral system(s).

SAMHSA's Behavioral Health Treatment Locator is used to help identify providers.

Other networks and information systems are used to help identify providers.

State maintains record of referrals made by religious organizations that are providers.

Enter the total number of referrals to other substance use disorder providers ("alternative providers") necessitated by religious objection, as defined above, made during the state fiscal year immediately preceding the federal fiscal year for which the state is applying for funds. Provide the total only. No information on specific referrals is required. If no alternative referrals were made, enter zero.

0

Provide a brief description (one paragraph) of any training for local governments and/or faith-based and/or community organizations that are providers on these requirements.

One managing entity (Central Florida Cares Health Services) informs patients and staff about patient rights to be transferred or referred due to religious objection.

0930-0168 Approved: 06/15/2023 Expires: 06/30/2025

V: Performance Data and Outcomes

Table 21 – Substance Use Disorder Primary Prevention NOMs Domain: Reduced Morbidity – Abstinence from Drug Use/Alcohol Use Measure: 30-Day Use

A. Measure	B. Question/Response	C. Pre- populated Data	D. Approved Substitute Data
1. 30-day Alcohol Use	Source Survey Item: NSDUH Questionnaire. "Think specifically about the past 30 days, that is, from [DATEFILL] through today. During the past 30 days, on how many days did you drink one or more drinks of an alcoholic beverage?[Response option: Write in a number between 0 and 30.]" Outcome Reported: Percent who reported having used alcohol during the past 30 days.		
	Age 12 - 20 - CY 2020 - 2021		
	Age 21+ - CY 2020 - 2021		
2. 30-day Cigarette Use	Source Survey Item: NSDUH Questionnaire: "During the past 30 days, that is, since [DATEFILL], on how many days did you smoke part or all of a cigarette?[Response option: Write in a number between 0 and 30.]" Outcome Reported: Percent who reported having smoked a cigarette during the past 30 days.		
	Age 12 - 17 - CY 2020 - 2021		
	Age 18+ - CY 2020 - 2021		
3. 30-day Use of Other Tobacco Products	Survey Item: NSDUH Questionnaire: "During the past 30 days, that is, since [DATEFILL], on how many days did you use [other tobacco products] ^[1] ?[Response option: Write in a number between 0 and 30.]" Outcome Reported: Percent who reported having used a tobacco product other than cigarettes during the past 30 days, calculated by combining responses to questions about individual tobacco products (cigars, smokeless tobacco, pipe tobacco).		
	Age 12 - 17 - CY 2020 - 2021		
	Age 18+ - CY 2020 - 2021		
4. 30-day Use of Marijuana	Source Survey Item: NSDUH Questionnaire: "Think specifically about the past 30 days, from [DATEFILL] up to and including today. During the past 30 days, on how many days did you use marijuana or hashish?[Response option: Write in a number between 0 and 30.]" Outcome Reported: Percent who reported having used marijuana or hashish during the past 30 days.		
	Age 12 - 17 - CY 2020 - 2021		
	Age 18+ - CY 2020 - 2021		
5. 30-day Use of Illicit Drugs Other Than Marijuana	Source Survey Item: NSDUH Questionnaire: "Think specifically about the past 30 days, from [DATEFILL] up to and including today. During the past 30 days, on how many days did you use [any other illicit drug]? ^[2] " Outcome Reported: Percent who reported having used illicit drugs other than marijuana or hashish during the past 30 days, calculated by combining responses to questions about individual drugs (heroin, cocaine, hallucinogens, inhalants, methamphetamine, and misuse of prescription drugs).		
	Age 12 - 17 - CY 2020 - 2021		

[1]NSDUH asks separate questions for each tobacco product. The number provided combines responses to all questions about tobacco products other than cigarettes.

[2]NSDUH asks separate questions for each illicit drug. The number provided combines responses to all questions about illicit drugs other than marijuana or hashish.

A. Measure	B. Question/Response	C. Pre- populated Data	D. Approved Substitute Data
1. Age at First Use of Alcohol	Source Survey Item: NSDUH Questionnaire: "Think about the first time you had a drink of an alcoholic beverage. How old were you the first time you had a drink of an alcoholic beverage? Please do not include any time when you only had a sip or two from a drink. [Response option: Write in age at first use.]" Outcome Reported: Average age at first use of alcohol.		
	Age 12 - 20 - CY 2020 - 2021		
	Age 21+ - CY 2020 - 2021		
2. Age at First Use of Cigarettes	Source Survey Item: NSDUH Questionnaire: "How old were you the first time you smoked part or all of a cigarette?[Response option: Write in age at first use.]" Outcome Reported: Average age at first use of cigarettes.		
	Age 12 - 17 - CY 2020 - 2021		
	Age 18+ - CY 2020 - 2021		
3. Age at First Use of Tobacco Products Other Than Cigarettes	Source Survey Item: NSDUH Questionnaire: "How old were you the first time you used [any other tobacco product] ^[1] ?[Response option: Write in age at first use.]" Outcome Reported: Average age at first use of tobacco products other than cigarettes.		
	Age 12 - 17 - CY 2020 - 2021		
	Age 18+ - CY 2020 - 2021		
4. Age at First Use of Marijuana or Hashish	Source Survey Item: NSDUH Questionnaire: "How old were you the first time you used marijuana or hashish?[Response option: Write in age at first use.]" Outcome Reported: Average age at first use of marijuana or hashish.		
	Age 12 - 17 - CY 2020 - 2021		
	Age 18+ - CY 2020 - 2021		
5. Age at First Use Heroin	Source Survey Item: NSDUH Questionnaire: "How old were you the first time you used heroin? [Response option: Write in age at first use.]" Outcome Reported: Average age at first use of heroin.		
	Age 12 - 17 - CY 2020 - 2021		
	Age 18+ - CY 2020 - 2021		
6. Age at First Misuse of Prescription Pain Relievers Among Past Year Initiates	Source Survey Item: NSDUH Questionnaire: "How old were you the first time you used [specific pain reliever] ^[2] in a way a doctor did not direct you to use it?"[Response option: Write in age at first use.]" Outcome Reported: Average age at first misuse of prescription pain relievers among those who first misused prescription pain relievers in the last 12 months.		

	Age 12 - 17 - CY 2020 - 2021		
	Age 18+ - CY 2020 - 2021		

[1]The question was asked about each tobacco product separately, and the youngest age at first use was taken as the measure.
[2]The question was asked about each drug in this category separately, and the youngest age at first use was taken as the measure.

Table 24 – Substance Use Disorder Primary Prevention NOMs Domain: Reduced Morbidity – Abstinence from Drug Use/Alcohol Use Measure: Perception of Disapproval/Attitudes

A. Measure	B. Question/Response	C. Pre- populated Data	D. Approved Substitute Data
1. Disapproval of Cigarettes	Source Survey Item: NSDUH Questionnaire: "How do you feel about someone your age smoking one or more packs of cigarettes a day?[Response options: Neither approve nor disapprove, somewhat disapprove, strongly disapprove]" Outcome Reported: Percent somewhat or strongly disapproving.		
	Age 12 - 17 - CY 2020 - 2021		
2. Perception of Peer Disapproval of Cigarettes	Source Survey Item: NSDUH Questionnaire: "How do you think your close friends would feel about you smoking one or more packs of cigarettes a day?[Response options: Neither approve nor disapprove, somewhat disapprove, strongly disapprove]" Outcome Reported: Percent reporting that their friends would somewhat or strongly disapprove.		
	Age 12 - 17 - CY 2020 - 2021		
3. Disapproval of Using Marijuana Experimentally	Source Survey Item: NSDUH Questionnaire: "How do you feel about someone your age trying marijuana or hashish once or twice?[Response options: Neither approve nor disapprove, somewhat disapprove, strongly disapprove]" Outcome Reported: Percent somewhat or strongly disapproving.		
	Age 12 - 17 - CY 2020 - 2021		
4. Disapproval of Using Marijuana Regularly	Source Survey Item: NSDUH Questionnaire: "How do you feel about someone your age using marijuana once a month or more?[Response options: Neither approve nor disapprove, somewhat disapprove, strongly disapprove]" Outcome Reported: Percent somewhat or strongly disapproving.		
	Age 12 - 17 - CY 2020 - 2021		
5. Disapproval of Alcohol	Source Survey Item: NSDUH Questionnaire: "How do you feel about someone your age having one or two drinks of an alcoholic beverage nearly every day?[Response options: Neither approve nor disapprove, somewhat disapprove, strongly disapprove]" Outcome Reported: Percent somewhat or strongly disapproving.		
	Age 12 - 20 - CY 2020 - 2021

Table 29 – Substance Use Disorder Primary Prevention NOMs Domain: Social Connectedness Measure: Family Communications Around Drug and Alcohol Use

A. Measure	B. Question/Response	C. Pre- populated Data	D. Approved Substitute Data
1. Family Communications Around Drug and Alcohol Use (Youth)	Source Survey Item: NSDUH Questionnaire: "Now think about the past 12 months, that is, from [DATEFILL] through today. During the past 12 months, have you talked with at least one of your parents about the dangers of tobacco, alcohol, or drug use? By parents, we mean either your biological parents, adoptive parents, stepparents, or adult guardians, whether or not they live with you." [Response options: Yes, No] Outcome Reported: Percent reporting having talked with a parent.		
	Age 12 - 17 - CY 2020 - 2021		
2. Family Communications Around Drug and Alcohol Use (Parents of children aged 12-17)	Source Survey Item: NSDUH Questionnaire: "During the past 12 months, how many times have you talked with your child about the dangers or problems associated with the use of tobacco, alcohol, or other drugs?" ^[1] [Response options: 0 times, 1 to 2 times, a few times, many times] Outcome Reported: Percent of parents reporting that they have talked to their child.		
	Age 18+ - CY 2020 - 2021		

[1]NSDUH does not ask this question of all sampled parents. It is a validation question posed to parents of 12- to 17-year-old survey respondents. Therefore, the responses are not representative of the population of parents in a State. The sample sizes are often too small for valid reporting.

General Questions Regarding Prevention NOMS Reporting

Question 1: Describe the data collection system you used to collect the NOMs data (e.g., MDS, DbB, KIT Solutions, manual process).

Providers and coalitions who provide prevention services using SABG funds are required to enter their services information into the Department's Performance Based Prevention System (PBPS). The information collected in PBPS includes, but is not limited to demographics, types of services, outcomes, group sizes, program descriptions and activities, and strategic planning materials. The recorded data are used to track and monitor utilization and performance of the Department-funded prevention strategies. These data are also used to compile Block Grant Reports which explain the services being provided throughout the state. The Department contracts with Collaborative Planning Group Systems, Inc. for the maintenance of PBPS. Performance Based Prevention System (PBPS). The information collected in PBPS includes, but is not limited to demographics, types of services, outcomes, group sizes, program descriptions and activities, and strategic planning materials. The recorded data are used to track and monitor utilization and performance of the Department-funded prevention strategies. These data are also used to compile Block Grant Reports which explain the services being provided throughout the state. The Department contracts with Collaborative Planning Group Systems, Inc. for the maintenance of PBPS.

Question 2: Describe how your State's data collection and reporting processes record a participant's race, specifically for participants who are more than one race.

Indicate whether the State added those participants to the number for each applicable racial category or whether the State added all those participants to the More Than One Race subcategory.

When entering data into Florida's Performance Based Prevention System (PBPS), providers must select one of the racial categories identified in Table 31. One of the categories available in PBPS is "More Than One Race." When the data are pulled from PBPS, the totals are based on their selections. Individuals identified as "More Than One Race" are only included in this category and are not added to multiple different racial categories. One of the categories available in PBPS is "More Than One Race." When the data are pulled from PBPS, the totals are based on their selections. Individuals identified as "More Than One Race" are only included in this category and are not added to multiple different racial categories.

Footnotes:

V: Performance Data and Outcomes

Table 34 – Substance Use Disorder Primary Prevention Number of Evidence-Based Programs and Strategies by Type of Intervention

Definition of Evidence-Based Programs and Strategies: The guidance document for the Strategic Prevention Framework State Incentive Grant, **Identifying and Selecting Evidence-based Interventions**, provides the following definition for evidence-based programs:

- Inclusion in a Federal List or Registry of evidence-based interventions
- Being reported (with positive effects) in a peer-reviewed journal
- Documentation of effectiveness based on the following guidelines:
 - Guideline 1:
The intervention is based on a theory of change that is documented in a clear logic or conceptual model; and
 - Guideline 2:
The intervention is similar in content and structure to interventions that appear in registries and/or the peer-reviewed literature; and
 - Guideline 3:
The intervention is supported by documentation that it has been effectively implemented in the past, and multiple times, in a manner attentive to Identifying and Selecting Evidence-Based Interventions scientific standards of evidence and with results that show a consistent pattern of credible and positive effects; and
 - Guideline 4:
The intervention is reviewed and deemed appropriate by a panel of informed prevention experts that includes: well-qualified prevention researchers who are experienced in evaluating prevention interventions similar to those under review; local prevention practitioners; and key community leaders as appropriate, e.g., officials from law enforcement and education sectors or elders within indigenous cultures.

1. Describe the process the State will use to implement the guidelines included in the above definition.

Florida implements SAMHSA's EBP guidelines using the following process. First, these guidelines are explicitly included within each Managing Entity contract through Guidance Document 1 (Evidence-Based Guidelines). This guidance document identifies SAMHSA's Evidence-Based Practices Resource Center, Blueprints for Healthy Youth Development, OJJDP's Model Programs, the California Evidence-Based Clearinghouse for Child Welfare, and the University of Washington Alcohol and Drug Abuse Institute's EBP Substance Use Database, as approved registries for identifying and selecting EBPs. Providers who wish to implement a program that is not in one of these registries must document the following: • The theory of change and logic model • How the content and structure is similar to programs or strategies that do appear in the approved registries or in the peer-reviewed literature (or how it is based on sound scientific principles of community prevention or public health) • The number of times it was implemented in the past, the fidelity with which it was implemented, and the results of any outcome evaluations • A review by a panel of informed experts. The Department reviews prevention programs with inconclusive, mixed, or limited findings to determine if they should be added to the list of EBPs in PBPS. To be considered evidence-based, prevention programs must have been evaluated, through a peer-reviewed publication, with an experimental or quasi-experimental research design and found to produce statistically significant reductions in substance use outcomes. An example of three such reviews are included as documentation to support the performance indicator updates.

2. Describe how the State collected data on the number of programs and strategies. What is the source of the data?

Figures used to populate this report were taken directly from ME Block Grant Reporting Templates (Contract Template 2).

Table 34 - SUBSTANCE USE DISORDER PRIMARY PREVENTION Number of Evidence-Based Programs and Strategies by Type of Intervention

	A. Universal Direct	B. Universal Indirect	C. Universal Total	D. Selective	E. Indicated	F. Total
1. Number of Evidence-Based Programs and Strategies Funded	67718	5651	73369	14951	40959	129279
