Your Child at 1 Year

Child's Name Child's Age How your child plays, learns, speaks, and acts offers important clues about your child's development. Developmental milestones are things most children can do by a certain age. Check the milestones your child has reached by his or her 1st birthday. Take this with you and talk with your child's doctor at every visit about the milestones your child has reached and what to expect next. What Most Children Do at this Age: Social/Emotional Is shy or nervous with strangers Cries when mom or dad leaves Has favorite things and people Shows fear in some situations Hands you a book when he wants to hear a story Repeats sounds or actions to get attention Puts out arm or leg to help with dressing Plays games such as "peek-a-boo" and "pat-a-cake" Language/Communication Responds to simple spoken requests Uses simple gestures, like shaking head "no" or waving "bye-bye" ■ Makes sounds with changes in tone (sounds more like speech) Says "mama" and "dada" and exclamations like "uh-oh!" Tries to say words you say Cognitive (learning, thinking, problem-solving) Explores things in different ways, like shaking, banging, throwing

Finds hidden things easily

a cup, brushes hair

Bangs two things together

Lets things go without help Pokes with index (pointer) finger

Copies gestures

Looks at the right picture or thing when it's named

Starts to use things correctly; for example, drinks from

Puts things in a container, takes things out of a container

■ Follows simple directions like "pick up the toy"

Movement/Physical Development

- Gets to a sitting position without help
- Pulls up to stand, walks holding on to furniture ("cruising")
- May take a few steps without holding on
- May stand alone

Today's Date

Doctor if Your

- Doesn't crawl
- Can't stand when supported
- Doesn't search for things that she sees you hide.
- Doesn't sav single words like "mama" or "dada"
- Doesn't learn gestures like waving or shaking head
- Doesn't point to things
- Loses skills he once had

Tell your child's doctor or nurse if you notice any of these signs of possible developmental delay for this age, and talk with someone in your community who is familiar with services for young children in your area, such as your state's public early intervention program. For more information, go to www.cdc.gov/concerned or call 1-800-CDC-INFO.
