Summary of Enhancements 2023.1.0 (3.4.0) (Q2 2022-2023)

{released to UAT 1/3/2023, released to PROD 2/1/2023}

Finalized Enhancements

1. **Update TEDS Extract (WI 617157)**

DCF requires an update to the TEDS Extract code to align with recommendations made by Hendall.

For admissions TEDS extract
- If Substance Use (Secondary) is 'None' (01), then Substance Use (tertiary) should be 'None' (01)
- If Substance Use (tertiary) is 'None' (01), then Route of administration (tertiary), Frequency of use (tertiary), and Age of first use (tertiary) should be 'not applicable' (96).
  - **Substance Use-** Mds14CTertiarySubstanceCode
  - **Route of Administration-** Mds15CTertiaryRouteOfIntakeCode
  - **Frequency of Use-** Mds16CTertiaryFrequencyCode
  - **Age of First Use-** Mds17CTertiaryAgeFirstUseNumber
- For Medication-assisted opioid therapy, if client has MAT as a service, this should be a yes. If client does not have MAT, then this should be a no. There should not be any unknown.
  - **Medication-Assisted Opioid Therapy-** Mds19OpioidReplaceTherapyCode
- Pregnant at admission should not have any unknown.
  - **Pregnant at Admission-** Suds06PregnantAtAdmissionCode

- TEDS Extracts are generating '7' for the field 'Suds18DiagnosticCodeSetIdentifierCode' if there is no diagnosis (for substance use patients)
  - Does DCF want to update the code to always send Suds18DiagnosticCodeSetIdentifierCode = '3' which equals ICD-10? **Yes**
