## 7 FY 2025-26 Active OCA Codes

FASAMS has a dedicated field in service events for OCAs. Thus, the former Modifier 4 codes are NOT reportable in FASAMS. A list of legacy modifiers and descriptions are listed in Table 10 of this appendix to support service providers not yet fully compliant with PAM 155-2 V13 to continue reporting data under V12 to their respective Managing Entities (ME). MEs are expected to report the actual five character OCA in the FASAMS OCA field. OCA modifiers are not appropriate for covered services.

## 12 SAMHIS Modifiers

FASAMS has a dedicated field in service events for OCAs. Thus, the former Modifier 4 codes are NOT reportable in FASAMS. A list of legacy modifiers and descriptions are listed in Table 10 of this appendix to support service providers not yet fully compliant with PAM 155-2 V13 to continue reporting data under V12 to their respective Managing Entities (ME). MEs are expected to report the actual five character OCA in the FASAMS OCA field. OCA modifiers are not appropriate for covered services.
