## II. General Policies and Considerations

### II.A. Adding Mental Health Outcome Records

1. Contractors report mental health outcome data for all clients receiving reportable client-specific service events associated with the mental health program.
2. A demographic record must exist for the same SSN, CONTRACTORID, and PROVIDERID. The Mental Health admission record must exist prior to the submission of any SERV, FARS/CFARS, or discharge.
3. To determine how Mental Health Target Groups are determined, refer to **Tables 4 and 5** under **IV. Mental Health Target Group Determination for ICD10 and ICD9 Codes** on pages 11 and 12 of this chapter.

### II.B. Updating Mental Health Outcome Records

1. A mental health outcome record can be updated by submitting a record with the same mandatory key fields. Refer to the mandatory key fields in Table 3 to identify the record to update. If the key fields match the record will be updated, otherwise it will be added.

### II.C. Deleting Mental Health Outcome Records

1. To delete a mental health outcome record, a PERF deletion record must be submitted according to the file layout in Table 2.

**Table 2. PERF Record Deletion File Layout**

Field	Position	Length	Format
CONTRACTORID	1	10	XX-XXXXXXX
SSN	11	9	XXXXXXXXXX
PURPOSE	20	1	X
EVALDATE	21	8	YYYYMMDD
PROVIDERID	29	10	XX-XXXXXXX

**Warning:** When a client's mental health admission record (PURPOSE = 1) is deleted, all associated services, assessments, quarterly evaluations, and discharges will be deleted.

### II.D. DCF Pamphlet 155-2 Chapters and Forms

## IV. Mental Health Target Group Determination FOR ICD-10 AND ICD9 Codes

### IV.A. General Comments

1. The mental health target populations are determined from the client's admission and service data.
2. In order for a target group to be determined for a client, the client must have a primary mental health diagnosis that allows a population group to be assigned.
