Finalized Enhancements

1. Consolidate FASAMS versions Part 2 (WI 587874)

- FEI will consolidate the FASAMS versions into a single database. Due to the large scope of this enhancement, the requirements are split into two parts and deployed over two consecutive releases. The requirements here include **Part 2** of the enhancement, encompassing all tasks following the data migration. FEI will complete the following post-migration tasks:
  - Support file submissions with or without "Version14" in the file name
    - All files submitted will be processed with the "Version14" job processor and stored in "Version14" database.
      - Note: Database will be stripped of "Version14" designation following this enhancement.
  - Remove "Version14" from Version 14 database schema names
  - Update all impacted extracts and task services that look for "Version14" specific tables
  - Decommission the reporting database
    - Remove Reporting Database ETL from code
    - Remove all Reporting Database tables
    - Remove grant access to Reporting Database role and permission from UI
  - Remove Version 13 TEDS temp tables and ETL processes
  - Remove all references to "Versions" in the system
    - Remove Version 13 database
    - Remove V13 as a parameter from all reports where Version can be selected.
  - Update Rules Configuration Tab in UI
    - Remove Version 13 data sets from Rules Configuration screen in UI
    - Remove Version 14 from V14 data set names
  - Create snapshot of FASAMS Production prior to removal of tables or data from the system
    - Including Jobs tables and Staging tables

2. Update Client & Job Performance Reports (WI 584841)

- DCF and Managing Entities require the Client and Job Performance reports to remain functional and accurate following the consolidation of FASAMS versions.
  - FEI will update the Job Performance and Client reports to point at the correct tables. Table names are being updated as part of enhancement 587874, Consolidate FASAMS Versions – Part 2.

3. Update Required Rules to be Ignored for ToolCode 0 (WI 608260)

- The managing entities require the ability to submit ToolCode '0' (No/Other LOC Assessment) without being required to submit an EvaluationDate, StaffIdentifier, or StaffEducationLevelCode.

- FEI will update the below rules to be disabled if ToolCode = 0:
  - EvaluationDate required rule
  - StaffIdentifier required rule
  - StaffEducationLevelCode required rule
