## 1 Introduction

### 1.1 Purpose

The purpose of this document is to give a high level overview of the security server and how to access the FASAMS Web Services.

There are two major concepts discussed:

- FASAMS Security Server – Basic description and example of requesting an access token.
- Accessing FASAMS Web Services – How to include the access token as a header when making requests to the portal web services

### 1.2 Scope

This document is intended for software engineers with a basic background and understanding of the following concepts:

- RESTful Web Services
- JSON
- OAuth2/OpenID Connect

### 1.3 References

The following table provides a list of reference web sites.
