TERMS AND DEFINITIONS

Terms	Description

SCOPE

INITIAL REQUEST & ASSUMPTIONS

Business Statement

The MCI file generated by FASAMS, for client matching purposes, must to be modified to replace special characters in the middle initial position with a ' ' (blank space) AND remove any '.' periods from the first and last name to prevent failure of the MCI matching process.

Scope Definition

The MCI file generation process in FASAMS will be modified to replace special characters in the middle initial position to a ' ' blank space AND remove any '.' periods from the first and last name to prevent MCI matching failures.

EXISTING FUNCTIONALITY

The MCI file generation process currently populates the first and last name from the ProviderClient table. The middle initial position in the MCI file is populated with the first character of the Middle Name column from the ProviderClient table. FASAMS does not remove or replace special characters or any other characters in the file.

PROPOSED FUNCTIONALITY

Modify the MCI file generation process in FASAMS to replace special characters in the middle initial position with a ' ' blank space AND remove any '.' periods from the first and last name to prevent MCI matching failures.

INITIAL ESTIMATE/ QUOTE HISTORY

Phase/ Quote Date	Item(s)	Description	Estimate/ Quote
8/14/2019	10562	Initial Estimate	0 - 90
8/14/2019	10562	Final Estimate	Development: 10 Testing: 20 Analysis: 6 Acct/Project Management: 4 Total: 40

REQUIREMENTS

Req. ID	Requirement	Ref. ID	Dev	QA
1.0	MCI file generation process		<input type="checkbox"/>	<input type="checkbox"/>
1.1	Modify the MCI file generation process to do the following <ul style="list-style-type: none"> replace special characters in the middle initial position with a ' ' blank space remove any '.' periods from the first and last name 		<input type="checkbox"/>	<input type="checkbox"/>
			<input type="checkbox"/>	<input type="checkbox"/>
