Agenda Items:

Item	Presenter	Time Limit
<p>1. Jonathan's Maternity Leave</p> <ul style="list-style-type: none"> - Jonathan's wife gave birth this past weekend and he asked that Nathan lead these meetings while he is gone - Agenda today is short, wanted to discuss deployment of latest deployment - Would like to hear more from ME IT Reps on their plan for submitting historical data 	<p>Nathan McPherson</p>	
<p>2. Deployment 2021.01.0</p> <ul style="list-style-type: none"> - Jesse reported they deployed recently with five main items: General Improvement Assessment Code (primary level of functioning), Unique Constraint Rules which will prevent duplicates in system, FASAMS version submission rules to deny submission of any earlier version of data when some of that data is loaded in to v14 (Greg will follow up and make sure the updated pamphlet is available) 	<p>Jesse Lindsey</p>	
<p>3. ME Plans for submitting historical data</p> <ul style="list-style-type: none"> - Nathan reviewed that majority of ME's are planning to purge historical data and reupload into v14 - Mike Idoni asked if there were any gaps in requirements. - Beau Frierson said there are no specific issues preventing data upload but did identify a number of non-working features. For example the civil codes because the combinations don't exist. - Mike said those examples are obstacles preventing data upload and without getting fixed will cause the ME's to under report their data. Certain OCA's can't be utilized - Greg reviewed that a new slate of OCA's are coming on board and requested that if anyone is having problems with specific OCA's to email him 	<p>Nathan McPherson</p>	

<ul style="list-style-type: none"> - Mike asked Beau for confirmation that fixing these problems will remove any remaining barriers to data upload - Nathan thanked Mike and Beau for their feedback and then returned to historical data - Johnny reported that they will convert all the historical data into v14 format and then resubmit all the historical to the current and will then request FEI to wipe FASAMS of their v13 data (planning for March) - Jennifer Ramirez said they have almost the same approach as Johnny. She said she wanted to submit her plan to SAMH to trouble shoot. Aiming for March or April - Mike Lupton reported that they will first purge duplicates, will then submit to v13 so there is no translation or derivation of existing data into v14 - Lisa Tajdari and Debbie Stephenson spoke to Big Bend that they will follow the same plan as CFCHN. - Diego reported the plan is to upload v14 in February. Taking same approach as Johnny. - Joe said they would be utilizing the same model as Big Bend and Central Florida Cares. - Nathan said they would discuss the issues Beau brought up next week. Asked if the field had any issues or concerns to address the next week. - Some discussion of some reoccurring problems regarding undo deletes and partial updates - Mike Lupton brought up how to code changes in program areas for clients transitioning from SA to MH and from child to adult in the system - Diego also brought up effective termination date for OCA funding - Steve Lord concurred and asked what the expectation from SAMH is on how to handle this
