When Should I Get this Brochure?
When you come into foster care, you can expect that your case manager will provide you with a copy of this Youth in Foster Care Expectations brochure and explain it to you. You can ask questions so that you can better understand what is happening. After any placement change or every six months, whichever comes first, you will be reminded about and explained these expectations, provided with the document, and able to share any concerns or questions.

Where Do the Expectations Come From?
Many of these expectations come from Florida law/statute (s. 39.4085, F.S.). The expectations included in this brochure describe what you can expect from the Department of Children and Families and the case management agency while in foster care.

THE DEPARTMENT’S COMMITMENT TO YOU

The Department of Children and Families is committed to making sure that everyone responsible for providing care and services to children in foster care will meet the expectations listed here.

You have the right to be able to contact your case manager or the Florida Children’s Ombudsman regarding violations of rights, to speak to the ombudsman confidentially, and to be free from threats or punishment for making complaints.

If you’re a youth or young adult in Florida’s child welfare system, we know that you’ve likely been through a lot. Because of this, we want to make sure that you’re in a place—physically, emotionally, and spiritually—where you can recover, grow, and feel the love that you deserve. If for any reason you aren’t in that place, please contact your case manager or the Children’s Ombudsman.

What the Children’s Ombudsman Can Do

- Listen and be a voice for children and youth
- Take complaints about placement, care, or services from youth without youth fearing retribution for the complaints
- Serve as a resource to identify and explain relevant policies or procedures

What the Children’s Ombudsman Cannot Do

- Respond to emergencies or investigate allegations of abuse or neglect
- Investigate, challenge, or overturn court-ordered decisions or provide legal advice
- Investigate complaints about a Guardian ad Litem

The Children’s Ombudsman will protect the confidentiality of your identity to the extent allowed under the law. Additionally, the Children’s Ombudsman will let you know that your identity may be revealed by the Ombudsman if deemed necessary to make sure you’re safe.
