CHILD FATALITY NOTIFICATION REQUIREMENTS

1. Purpose. This operating procedure further clarifies the notification protocol for child fatalities reported to the Department of Children and Families Florida Abuse Hotline. This operating procedure provides additional reporting requirements over and above the reporting requirements contained in CFOP 215-6 for reporting child fatalities entered into the Incident Reporting and Analysis System (IRAS). It is intended to clarify the expectation for immediate and consistent reporting on the circumstances of the fatality that includes information known by the department about the victim or the victim's family. It also establishes time frames for notification and IRAS reporting purposes specific to child fatalities.
2. Scope. This operating procedure applies to all employees of the Florida Abuse Hotline, to any employee reporting a child fatality to the Hotline, to Regional Managing Directors, and to those individuals designated responsibility for creating Incident Reporting and Analysis System entries for child fatalities.
3. Reporting Guidelines for Child Fatalities. The following reporting requirements are in addition to the requirements contained in CFOP 215-6.
 - a. Upon notification to the Florida Abuse Hotline of a child fatality, the Hotline Director or designee shall generate an email notification to the Deputy Secretary, Director of Operations and the geographically applicable Regional Managing Director.  - (1) County where the child is alleged to have deceased; and,
